Location	Tada, Katori, Ibaraki
Capacity	2.4MW (Module basis)
Annual power-generation capacity	2.80 million kWh (Equivalent to the annual power consumption of 777 households)
Operation start	March 19, 2016
Construction , maintenance, management	Sharp Corporation
Power Producer	IP Ayame Solar Power Generation LLC

Bizen Solar Power Plants No.1 / No.2

Plant name	Bizen Solar Power Plants No.1 / No.2
Location	Bizen, Okayama
Capacity	3.56MW (Module basis)
Annual power-generation capacity	3.93 million kWh (Equivalent to the annual power consumption of 1,092 households)
Operation start	August 20, 2016
Construction , maintenance, management	Daiwa House Industry Co., Ltd.
Power Producer	IP Bizen Solar Power Generation LLC

Taikicho Solar Power Plant

Plant name	IP Mie Taikicho Solar Power Plant
Location	Taikicho, Mie
Capacity	1.78 MW (Module basis)
Annual power-generation capacity	1.90 million kWh (Equivalent to the annual power consumption of 527 households)
Operation start	August 26, 2016
Construction , maintenance, management	Sharp Corporation
Power Producer	IP Mie Taikicho Solar Power Generation LLC

Integrity Partners aims to invest in and operate 30 renewable energy facilities totaling 300 MW around Japan over the next three years. We are dedicated to operating a new era in Japan's infrastructure investments by establishing a track record of financing scheme development and plant construction / operation with the aim of facilitating the introduction of private sector funds, which are expected to play an important role in the construction and renewal of infrastructure in Japan.
