Construction start of IP Fukushima Onomachi Solar Power Plant of 32.8 MW in Onomachi

Integrity Partners LLC (Chiyoda-ku, Tokyo; Representative Director Masanori Akiba) has invested in renewable energy businesses since 2012, and has constructed and acquired solar plants around the nation.

Integrity Partners is pleased to announce the construction start of IP Fukushima Onomachi Solar Power Plant of 32.8 MW in Onomachi, Fukushima on August 1, 2017. Its financing has been provided by financial institutions arranged by Bank of Tokyo-Mitsubishi UFJ.

Please see below for an overview of IP Fukushima Onomachi Solar Power Plant

Plant name	IP Fukushima Onomachi Solar Power Plant
Location	Onomachi, Tamura-gun, Fukushima
Capacity	32.8MW (Module basis)
Annual power-generation capacity	36.89 million kWh (Equivalent to the annual power consumption of 10,250 households)
Operation start	November 2019
Construction , maintenance, management	Daiwa House Industry Co., Ltd.
Power Producer	IP Fukushima Onomachi Solar Power Generation LLC

Integrity Partners aims to invest in and operate 30 renewable energy facilities totaling 300 MW around Japan over the next three years. We are dedicated to operating a new era in Japan’s infrastructure investments by establishing a track record of financing scheme development and plant construction / operation with the aim of facilitating the introduction of private sector funds, which are expected to play an important role in the construction and renewal of infrastructure in Japan.
